This is a chat application similar to iMessages.

User can chat with any person he/she would like.

User's home page consists of all the people with whom he/she had a conversation.
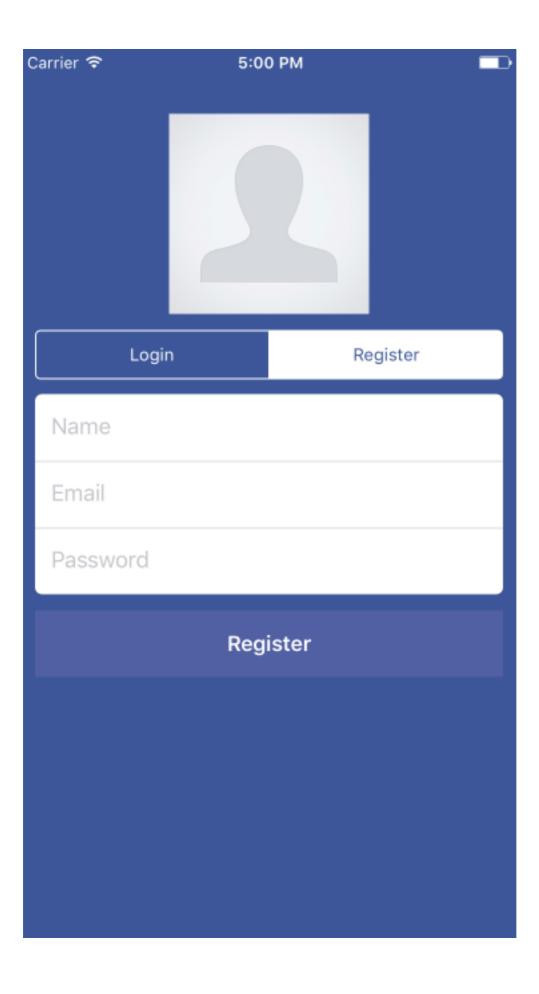

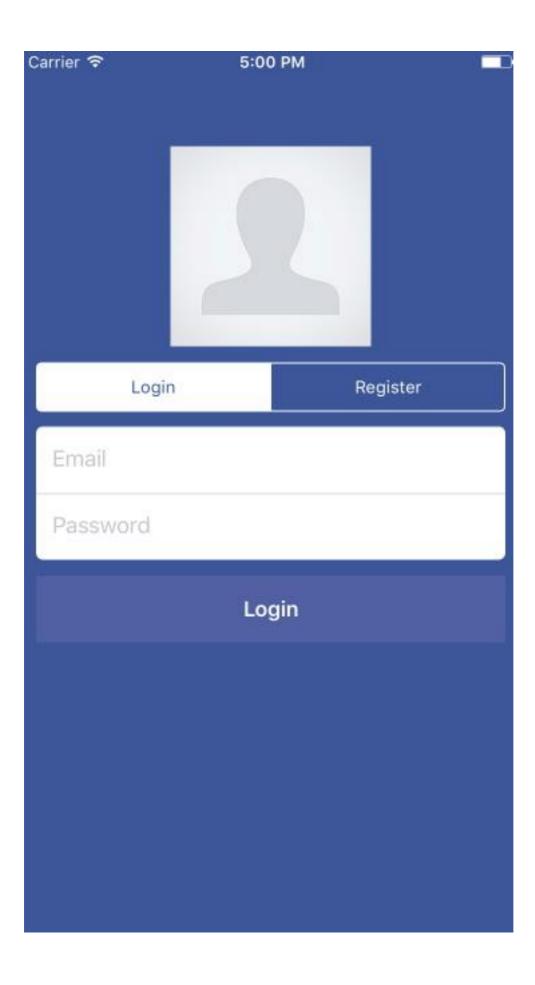

User has the flexibility to send images.

User's messages and the receiver's messages are distinguished clearly.

Interactive keypad design to make the application easy to chat.

All the features are implemented using Firebase.

Some of the screen shots of the application are shown below

Test3   04:51:53 PM
Yeah. I am working on it.

Test1   04:45:36 PM
Hello how are you?

Hello, how are you?

I'm great. How are you?

Cool

Check out this photo i captured

Wow. Why don't you become a professional photographer

Yeah. I am working on it.

Enter message...   Send
